STUDENT SEARCHES AND INTERROGATIONS

The Board of Education is committed to ensuring an atmosphere on school property and at school functions that is safe and orderly. The purpose of this policy is to put in place practices which will better ensure a safe and effective learning environment.

Students are protected by the Constitution from unreasonable searches and seizures. A student may be searched and contraband/prohibited items seized on school grounds or in a school building by an authorized School District employee only when the School District employee has reasonable suspicion to believe the student has engaged in or is engaging in proscribed activity which is in violation of the law and/or school rules (the District Code of Conduct). The reasonableness of any search involves a twofold inquiry. School officials must first determine whether the action was justified at its inception, and second, determine whether the search, as actually conducted, was reasonably related in scope to the circumstances which justified the interference in the first place.

Factors to be considered in determining whether reasonable suspicion exists to search a student include: a) The age of the student; b) The student's school record and past history; c) The predominance and seriousness of the problem in the school where the search is directed; and d) The probative value and reliability of the information used as a justification for the search; e) The school official's prior knowledge of and experience with the students; and f) The urgency to conduct the search without delay.

The Board authorizes the Superintendent of Schools, Building Principals, the school nurse and district security officials to conduct searches of students and their belongings, in most instances, with exceptions set forth below in A. and B., if the authorized school official has reasonable suspicion, as set forth herein.

Reasonable suspicion may be based upon information received from a reliable informant. Individuals, other than the district employees, will be considered reliable informants if they have previously supplied information that was accurate and verified, or they make an admission against their own interest, or they provide the same information that is received independently from other sources, or they appear to be credible and the information they are communicating relates to an immediate threat to safety. District employees will be considered reliable informants unless they are known to have previously supplied information that they knew was not accurate.

Before searching a student or the student's belongings, the authorized school official should attempt to get the student to admit that he or she possesses physical evidence that they violated the law or the district code, or get the student to voluntarily consent to the search. Searches will be limited to the extent necessary to locate the evidence sought. In this regard, students are not subject to Miranda warnings when questioned by school officials and district officials may question students, upon reasonable suspicion, without informing the student's parents and/or without parental consent. When questioning younger students, particularly in the elementary grades, the district's general practice will be to contact student's parents in advance and permit, to the extent reasonably practicable, to have the parents present prior to any questioning.

Whenever practicable, searches will be conducted in the privacy of administrative offices and students will be present when their possessions are being searched.

A. Student Lockers, Desks and other School Storage Places

The rules in this policy or district's code of conduct regarding searches of students and their belongings do not apply to student lockers, desks and other school storage places. Students have no reasonable expectation of privacy with respect to these places and school officials retain complete control over them. This means that student lockers, desks and other school storage places may be subject to search at any time by school officials, without prior notice to students and without their consent.
B. Strip searches

A strip search is a search that requires a student to remove any or all of his or her clothing, other than an outer coat or jacket. If an authorized school official believes it is necessary to conduct a strip search of a student, the school official may do so only if the search is authorized in advance by the Superintendent or the school attorney. The only exception to this rule requiring advanced authorization is when the school official believes there is an emergency situation that could threaten the safety of the student or others.

Strip searches may only be conducted by an authorized school official of the same sex as the student being searched and in the presence of another district professional employee who is also of the same sex as the student.

In every case, the school official conducting a strip search must have reasonable suspicion to believe the student is concealing evidence of a violation of law or the district code. In addition, before conducting a strip search, the school official must consider the nature of the alleged violation, the student's age, the student's record, the quality of the knowledge that lead to the reasonable suspicion and the need for such a search.

School officials will attempt to notify the student's parent by telephone before conducting a strip search, or in writing after the fact if the parent could not be reached by telephone.

C. Treatment of Cell Phones

Confiscating a cell phone is not considered a search and neither is looking at what is in plain view on the screen of the phone. A cell phone may be confiscated for violation of use policy and reasonable suspicion of its contents.

Teachers and administrators are authorized to confiscate student cell phones that are being used in violation of the code of conduct and/or policy 5695, Student Use of Electronic Devices. Teachers and administrators are permitted to look at the screen of the cell phone. Administrators can request the student’s cooperation to search the cell phone further. Without a student’s permission, school officials should not undertake a more extensive search until conferring with the Superintendent or school attorney for guidance.

D. Documentation of Searches

The authorized school official conducting the search shall be responsible for promptly recording the following information about each search:

1. Name, age and grade of student searched.
2. Reasons for the search.
3. Name of any informant(s).
4. Purpose of search (that is, what item(s) were being sought).
5. Type and scope of search.
6. Person conducting search and his or her title and position.
7. Witnesses, if any, to the search.
8. Time and location of search.
9. Results of search (that is, what items(s) were found).
10. Disposition of items found.
11. Time, manner and results of parental notification.

The authorized school official shall be responsible for the custody, control and disposition of any illegal or dangerous item taken from a student. The authorized school official shall clearly label each item taken from the student and retain control of the item(s), until the item is turned over to the police. The authorized school official shall be responsible for personally delivering dangerous or illegal items to police authorities.
E. Police Involvement in Searches and Interrogations of Students

District officials and staff are committed to cooperating with police officials and other law enforcement authorities to maintain a safe school environment. Police officials, however, have limited authority to interview or search students in schools or at school functions, or to use school facilities in connection with police work. Police officials may enter school property or a school function to question or search a student or to conduct a formal investigation involving students only if they have:

1. A search or an arrest warrant; or
2. Probable cause to believe a crime has been committed on school property or at a school function.

Before police officials are permitted to question or search any student, the authorized school official shall first try to notify the student’s parent to give the parent the opportunity to be present during the police questioning or search. If the student’s parent cannot be contacted prior to the police questioning or search, the questioning or search shall not be conducted, unless the student is 16 years of age or older. The authorized school official will also be present during any police questioning or search of a student on school property or at a school function.

Students who are questioned by police officials on school property or at a school function will be afforded the same rights they have outside the school. This means:

1. They must be informed of their legal rights.
2. They may remain silent if they so desire.
3. They may request the presence of an attorney.

F. Child Protective Services Investigations

Consistent with the district’s commitment to keep students safe from harm and the obligation of school officials to report to child protective services when they have reasonable cause to suspect that a student has been abused or maltreated, the district will provide data and assistance to local child protective services workers or members of multi-disciplinary team accompanying such workers who are responding to allegations of suspected child abuse, and/or neglect, or custody investigations. Such data and assistance include access to records relevant to the investigation, as well as interviews with any child named as a victim in a report, or a sibling of that child, or a child residing in the same home as the victim.

All requests by child protective services to interview a student on school property shall be made directly to Principal or his or her designee. Child protective service workers and any associated multi-disciplinary team members must comply with the district’s procedures for visitors, provide identification, and identify the child(ren) to be interviewed. The Principal will ensure a school staff member, including but not limited to an administrator or school nurse, to observe the interview either from inside or outside the interview room.

A child protective services worker may not remove a student from school property without a court order, unless the worker reasonably believes that the student would be subject to danger of abuse if not he or she were not removed from school before a court order can reasonably be obtained. If the worker believes the student would be subject to danger of abuse, the worker may remove the student without a court order and without the parent’s consent.
